

# Solutions for animal healthcare and nutrition

**Trusted Friend of the Bio – World**

Advanced Biotechnologies is a high tech enterprise specializing in the field of feed additives and veterinary products. The company encompasses world wide network information and technical tie-up with universal corporations round the globe.

**Corporate Profile**

## Quality

“Quality is never an accident; it is always the result of high intention, sincere effort, intelligent direction and skillful execution; it represents the wise choice of many alternatives.”

-William A. Foster

## **Serving the global requirement of Animal Feed Supplements, Additives and Veterinary products**

Advanced Biotechnologies is a global enterprise that uses advancements in biotechnology to offer a range of animal feed supplements, additives and veterinary products to markets across the world. Our scientific prowess guides our product development and our pan global connections with laboratories and centres of research help us formulate and supply quality animal feed supplements and veterinary products that are popularly used in the poultry, livestock, and aquaculture and swine sectors.

### **An enduring concern for animal health and nutrition**

We are driven by a vision of delivering products that will promote animal health and nutrition. We offer a wide selection of fermentation products and enzymes that have the ability of beneficially impacting the health of birds & animals.

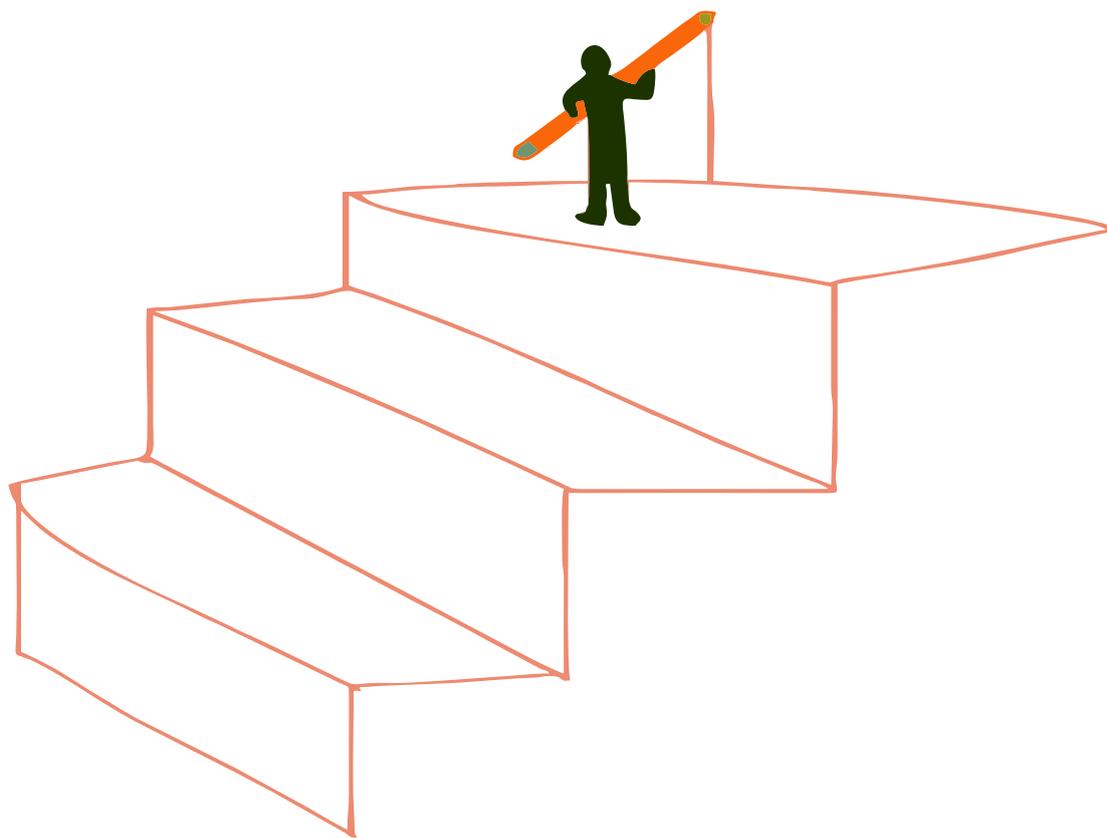

### **Enduring strengths that promotes diversification**

As one of the leading specialists in the field of enzymes, we have a large portfolio of feed supplement products besides a vast store of application and technical knowhow. We have harnessed these strengths to power and plan to diversify into the industries of pharmaceuticals – (digestive and anti-inflammatory enzymes), Nutraceuticals, Fruit juice processing, and the paper industry.

### **Customer focused approach**

We not only produce and market our own wide range of products; we are also in the business of custom development and supply of products for our clients. Our scientific capabilities in Research and Development power our throughputs and we have successfully developed custom products for a range of customers at economical costs. We believe in a relationship based approach and deliver value to cement our customer relationships.

## Vision

To be a globally respected company in the field of animal health & nutrition by providing quality products & services and creating winning relationships.

At Advanced Biotechnologies, we constantly strive to adapt our broad market knowledge of the Industry by using the best human assets and technology to enter new markets and give our customers more choices and create innovative solutions to fully serve the interests of man and environment together.

## Mission

Development and commercialization of innovative formulations for improved animal performance at its best. Our mission is to be a leader in providing safe and high quality products to our customers there by serving our primary commitment to their need of the hour!

# Sustaining a growth enabling infrastructure

From inception, our aim has been to build and sustain an infrastructure that will enable our growth. Our infrastructure is centered on our research laboratories and production centers, and is ably supported by our offices that enable us to reach out and serve customers. We are avid investors in technology and ensure that our capabilities are world class.

## Our Management Office

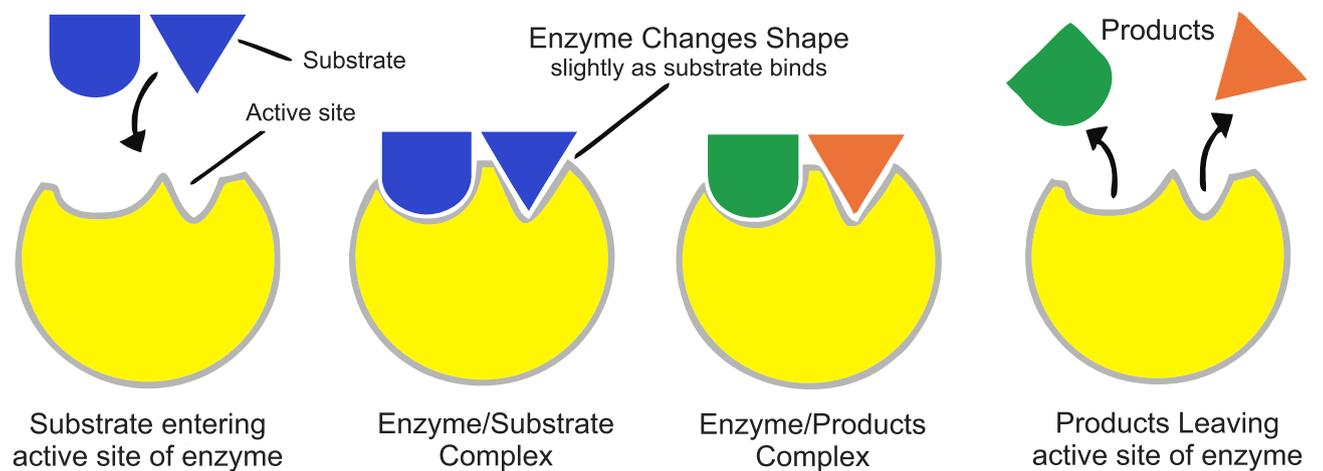

## Our Research Facility

## ‘Enzymes as a productivity enhancer in animal feed’

Feed additives are products used in animal nutrition for improving the quality of feed and to improve the animal’s performance and health. The strategic objective of our Feed Additives company is to provide the global market with a complete range of highly technical additives, meant for feed industry. The product range consists of an ideal mix of distribution products.

## Poultry Product Range

Cockxyme		Perfect cocktail blend of enzymes, enhances nutrient availability and there by improvement in FCR.	
Powder/Granule	25 Kg Paper Bag		
Phyxyme 5000		25 kg Paper bag	Powder/Granule
Coated, heat stable, highly active bacterial phytase enzyme.			
ToxiFicks		25 kg Paper bag	Powder
Broad Spectrum Mycotoxin Binder containing HSCAS, Sodium Bentonite, Organic acids, MOS and Activated charcoal.			
Liv'Care		25 kg Paper bag/ 5 litre Jar	Powder/Liquid
Unique combination of liver stimulants, Choline chloride, Vitamins & yeast extracts to tone up liver functions in poultry birds.			
MinMix		25 kg Paper bag	Powder
Ideal blend of Enzymes, traceminerals, vitamins to take care of balanced nutritional requirements.			
ProBioXyme		25 kg Paper bag	Powder
Blend of bacteria's, enzymes and immuno stimulantsto stabilize the intestinal flora by minimizing the number of pathogenic intestinal micro organisms and their negative effects.			
ADDElectro		100g/500g	Powder
Electrolytes, vitamins and Dextrose.			
ADDEmul		25 kg Paper bag	Powder
Nutritional emulsifier for poultry or pigs containing a blend of Hydrolysed lecithin, Phosphatidyl choline, Trimethyl glycine.			
Acidifee		25 kg Paper bag/ 25 litre HDPE Jar	Powder/Liquid
Unique blend of various organic acids with stabilizers in buffered base that maintains the pH regulation in gut to prevent any growth of harmful bacteria.			
ADDGuard		25 kg Paper bag	Powder
Effective Antioxidant for animal feed containing unique blend of BHT/BHA/TBHQ, Ethoxyquine, Lecithin, Citric acid and ortho phosphoric acid.			

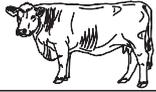

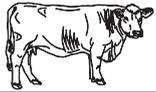

# Swine Product Range

Cockxyme		Perfect cocktail blend of enzymes, enhances nutrient availability and there by improvement in FCR.	
25 kg HDPE lined Paper bag	Powder/Granule		
Phyxyme 2500/5000		25 kg Paper bag	Powder/Granule
Coated, heat stable, highly active bacterial phytase enzyme.			
ToxiFicks		25 kg Paper bag	Powder
Broad Spectrum Mycotoxin Binder containing HSCAS, Sodium Bentonite, Organic acids, MOS and Activated charcoal.			
Acidifee		25 kg Paper bag/ 25 litre HDPE Jar	Powder/Liquid
Unique blend of various organic acids with stabilizers in buffered base that maintains the pH regulation in gut to prevent any growth of harmful bacteria.			
MinMix		25 kg Paper bag	Powder
Ideal blend of Enzymes, traceminerals, vitamins to take care of balanced nutritional requirements.			
ProBioXyme		25 kg Paper bag	Powder
Blend of bacteria's, enzymes and immuno stimulantsto stabilize the intestinal flora by minimizing the number of pathogenic intestinal micro organisms and their negative effects.			
ADDElectro		100g/500g	Powder
Electrolytes, vitamins and Dextrose.			
Liv'Care		25 kg Paper bag/ 5 litre Jar	Powder/Liquid
Unique combination of liver stimulants, Choline chloride, Vitamins & yeast extracts to tone up liver functions in poultry birds.			
ADDEmul		25 kg Paper bag	Powder
Nutritional emulsifier for poultry or pigs containing a blend of Hydrolysed lecithin, Phosphatidyl choline, Trimethyl glycine.			
ADDGuard		25 kg Paper bag	Powder
Effective Antioxidant for animal feed containing unique blend of BHT/BHA/TBHQ, Ethoxyquine, Lecithin, Citric acid & ortho phosphoric acid.			

# Ruminant & Aqua Product Range

## Ruminant

ADDElectro		Electrolytes, vitamins and Dextrose.	
100g/500g	Powder		
ADD Lacta		1kg	Powder
Proven blend of enzymes and probiotics for enhanced milk production, protein and fat.			
ADDMin		1kg	Powder/Bolus
An ideal blend of natural additives to prevent anoestrus, repeat breeding & delayed maturity in cattle's/buffalo's.			
ADDPro		1kg	Powder
Eco friendly solution to Ruminal disorders Viz. Diarrhea, Acidosis, Anorexia, Ruminal Atony etc.			

## Aqua

Aqua Pro - D		Unmatched blend of probiotics, enzymes and Vitamin C for enhanced growth & reduced stress in aquatic animals.	
1kg	Powder		
Aqua Pro - P		1kg	Powder
Probiotics mixture used as Pond conditioner, to reduce the organic loads in water and for healthy aqua culture practices.			
Aqua - Zeo		25 kg Poly bag	Powder
It's a Zeolite used for removal of toxic ammonia by way of ion exchange as a physical/chemical filter and capable of producing oxygen enriched air for water system aeration.			
AddOxo		1kg/25kg Paper bag	Powder
To increase the dissolved oxygen levels in ponds there by enhances the survival, growth, brightness, quality of shrimps, prawns and other fishes.			

“Coming together is a beginning.  
Keeping together is progress.  
Working together is success.  
- Henry Ford”

## Mr. Sangeet Mohan, CMD

### **Educational Background**

Mr. Sangeet Mohan is a well known name in the field of Animal Feed and Nutrition. He began his education by graduating in Chemistry from the MK University and went on to do his B. Tech in Food Science and Technology from UDCT Mumbai, an institute that is considered to be one of the best of its kind in Asia.

### **Business Interests**

His association with the technology of formulation and manufacturing of feed enzymes began right at the beginning of his career and continues to date. His interest and experience in the feed and additives industry prompted him to launch Advanced Biotechnologies with its headquarters in Mumbai. He heads a qualified, talented and experienced team that has today established a worldwide distribution network. He has an enduring interest in the field of animal biotechnology and many of the innovative products are an outflow of this pursuit.

## Ms. Sheeja, Director

### **Educational Background**

Ms. Sheeja is a Commerce Graduate who then went on to study law. She is a LLB from the Siddharth College of Law, Fort, Mumbai.

### **Business Interests**

She joined Advanced Biotechnologies in the year 2010 and since then she has been responsible for overseeing matters related to administration, legal issues, and taking care of the financial health of the company. She is in charge of handling issues related to customs rules and regulations, exports and related matters. She has been instrumental in ensuring the meticulous and smooth running of the Thane office. She has been successful in enforcing and maintaining an atmosphere of harmony and understanding between the staff and management and ensuring high morale and motivation.

## Mr. N.K.Nair, Export Manager

### **Management Role**

Mr. N. K. Nair heads the export affairs of Advanced Biotechnologies. He is a commerce graduate with rich experience of over 20 years in handling various trade domains. His tremendous knowledge about international trade in the areas of branding, shipping and customs trade affairs has helped our company achieve its goal in a short span of time.

## Mr. Ankit Chedda, Auditor

### **Management Role**

Mr. Ankit Chedda is a highly qualified Chartered Accountant who has an all India rank in CA. He takes care of the important aspects of finance and taxation. With Advanced Biotechnologies he has successfully managed the finance and taxation for several domestic and international clients.

## **ADVANCED BIOTECHNOLOGIES**

### **Management Office:**

Advanced Biotechnologies 87/2,
