

**Introduction:**

Withdrawal of antibiotics from poultry foods created need for alternative solutions which would influence improvement of health and production traits of poultry birds and swine. Hence, the necessity has turned the scientist to develop for Natural Growth Promoter that is considered to be very much safe for birds and humans to consume. A number of researches have proven positive on the use of natural growth promoter in enhancing the growth performance of poultry & swine.

**What is AddGrow Plus?**

**AddGrow plus** is a nutritional supplement for Chickens and swines. It prevents production failures related to nutritional deficiencies in animals. It is a blend of limiting amino acids, minerals and enzymes to maximize the production and economic returns.

**BENEFITS:**

- Compensate the loss of nutrients
- Improves size, production and quality of eggs
- Prevents production failures
- Improves fertility and hatchability
- Cuts down the mortality of birds

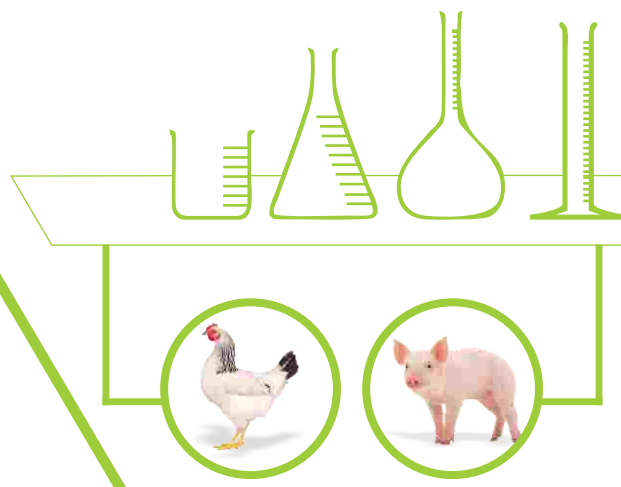

**Dosage:**

**Chicks:** 2-3 ml per litre of water.

**Broilers:** 2 ml per litre of water.

**Breeders & Layers:** 2 ml per litre of water.

**Shelf Life:** ADDGROW PLUS is stable for 24 months from the date of manufacture.
